

Sikorsky Global Helicopters to Display S-300 Series Helicopter Fitted with Spray System at NAAA

HORSEHEADS, N.Y., Dec. 5, 2009 – Sikorsky Global Helicopters, a business unit of Sikorsky Aircraft Corp., today announced plans to display an S-300 series helicopter fitted with the Simplex - Helipod Model H269 spray system at the National Agricultural Aviation Association's 43rd Annual Convention & Exposition Dec. 7-10 in Reno, Nev. Sikorsky Aircraft Corp. is a subsidiary of United Technologies Corp. (**NYSE:UTX**).

Sikorsky Global Helicopters, Light Helicopter Division, has teamed with Simplex - Helipod to introduce a spray system and cargo pods for S-300C™ and S-300CBi helicopters. The Simplex - Helipod Model H269 spray system and cargo pods have been designed specifically for the S-300 helicopter series and will soon begin the FAA certification process. These systems are already certified in New Zealand.

“Operating safe, durable S-300 series helicopters presents a great advantage for agricultural operators,” said David Oglesbee, Director, Sikorsky Global Helicopters, Light Helicopter Division. “The addition of the Simplex - Helipod Model H269 spray system enhances the appeal of our products and shows our reinvigorated commitment to the agricultural aviation market.”

—MORE—

The S-300C helicopter in particular is an effective alternative to both fixed wing and larger rotary wing aircraft for agricultural operators. With its 950-pound useful load, the S-300C helicopter combines outstanding endurance with value. Its agility and responsiveness, coupled with 360-degree visibility, make it an ideal fit in the agricultural aviation market.

The S-300C helicopter operates throughout the world in many demanding roles including military patrol, power line/pipeline patrol, commercial and military flight training, ranching, external load operations, animal surveys, aerial photography and personal transportation. The cockpit size, load capacity, performance characteristics, robust design and low direct operating costs make the S-300C a leader in its class.

Sikorsky Global Helicopters, a Sikorsky company, comprises current Sikorsky platforms S-76[®], S-92[®] and H-92[™] helicopters; light helicopter platforms, the S-300C[™], S-300CBI[™], S-333[™] and S-434[™] helicopters; and all operations of Keystone Helicopter Corp. and Associated Aircraft Group (AAG).

Sikorsky Aircraft Corp., based in Stratford, Conn., is a world leader in helicopter design, manufacture, and service. United Technologies Corp., based in Hartford, Conn., provides a broad range of high-technology products and support services to the aerospace and building systems industries.
